

KEY BENEFITS

The Liquid Level Indicator was thoughtfully designed to help those with limited visibility to pour both hot and cold liquid safely.

Complete with 2-stage alarm and vibration signals that prevent spills and scalds to help manage hot water safely.

SLEEK & STYLISH DESIGN

Unlike many daily living aids on the market, the Liquid Level Indicator was designed with both form and function in mind.

The kitchen is the heart of the home, and we want you to feel at ease there, staying confident and independent while handling boiling water.

SOUND & VIBRATION

The Liquid Level Indicator is ideal for those who are visually impaired. It emits a series of beeps and vibrations to indicate the levels of whatever you're pouring.

The first series of alerts indicates when your vessel is near full, and both intensify as you fill to help prevent any scalds or spills.

ADJUSTABLE PRONGS

There are adjustable prongs that suit all sizes of cups, glasses and pots. You decide how low or how high you wish the liquid to be.

The lowest prongs tell you that your cup is nearly full and once the liquid reaches the highest prong, your cup is full.

MAGNETIC

With a built-in magnet, you can easily store the Liquid Level Indicator to your fridge, microwave, or any metal surface in the kitchen. This will help to keep it easily accessible and avoid the need to search in drawers looking for it.

SLASH PROOF

With the peel-back rubber cap, the battery is easily replaced and splash-proof. This ensures a long battery life and a quality product.

Liquid Level Indicator Features

- ✓ 1-year guarantee
- ✓ Vibrates
- ✓ Beeps
- ✓ 2 stage alarm
- ✓ Magnetic
- ✓ Works with both hot and cold liquids
- ✓ Easy to clean (damp cloth)
- ✓ Splash proof
- ✓ Battery included

What Our Customers Say

"A great idea for those with failing sight to stop them over filling cups with hot water. Great purchase and quick delivery." – Edith, London

"For someone with imperfect vision, it makes it safer to make a cup of tea or coffee. Good value for money." – Ronald, Kent

"Very useful for my Dad, he's very poor sight and is in his 90's." – Paul, Cambridge

"Bought for my Mum with macular degeneration. It's made such a difference for her when making cups of tea." – Anne, Surrey
