Uccello Liquid Level Indicator Description for Your Website / Web shop

Approved Product Titles

Uccello Liquid Level Indicator

Product Description:

The Uccello Liquid Level Indicator was designed to help those with limited visibility, to pour liquid into their cup/mug without overfilling or spilling.

It's stainless-steel prongs (*sense the level of liquid in your cup*), allows you to fill your cup/glass easily and safely every time. When the liquid nears the first prong you will hear and feel a moderate beep and vibration.

When the liquid reaches the second prong, the beeping and vibrations become louder and more intense, this indicates that it is time to stop.

Further information about the Uccello Liquid Level Indicator should you need it:

Customer Reviews:

“For someone with imperfect vision, this makes it safer to make a cup of tea/coffee. Good value for money.” - *Ronald, Birmingham*

“ Bought for Mum with macular degeneration. It’s made such a difference to her when making cups of tea.” - *Alison, Leeds*

“Brilliant, helps my Mum keep some independence.” - *Kirsty, Liverpool*

“Very useful for my Dad, who has very poor sight and is in his 90’s.” - *Paul, Surrey*
